

## INFORMATION PAPER

PP&O  
29 July 2004

SUBJECT: UNIQUE IDENTIFICATION (UID) OF TANGIBLE ITEMS, NEW EQUIPMENT, MAJOR MODIFICATIONS, AND REPROCUREMENTS OF EQUIPMENT AND SPARES

### FACTS:

1. Balanced Scorecard Goal/Objective. Enhance Logistics Planning
2. Project Description. UID is an enabler to enhance logistics, contracting and financial business transactions supporting U.S. and coalition troops. The intent for this procedure is to consistently capture the value of items procured, control items during their use and combat counterfeiting of parts.
3. Why Required. The intent for this procedure is to consistently capture the value of items procured, control items during their use and combat counterfeiting of parts.
4. Resources. No funding was included in the FY06 POM process, however during the current Budget Year, there was an estimated \$130K requested to support unfunded requirements, to include TAD and procurement of part marking equipment for the depots (Albany and Barstow).
5. Plan of Action and Milestones. A working group, chaired by PP&O with members from all functional areas of LogCom and ad hoc members from DLA and SYSCMD will actively participate in various conferences, summits and lesson learned initiatives, in order to frame LogCom's approach to implementing UID.
6. Owning Organization/ Partners. PP&O will coordinate across core competencies.
